The 1834 picture of Evelyn Nesbit Thaw has just been published.

Congratulations to Midshipman Swarney of Barre, who graduates from the U. S. naval academy next week.

Prof. C. H. Perkins, the state geologist, scatters our fears by saying that Vermont is not likely to have an earthquake of serious proportions. The heavy convulsions we get are all political.

J. W. Ketchum is still catching 'em, this time a lemon from the United States, in place of a reprieve. Nevertheless, June 23 is not far away, when he can ponder on the wrecking of the Vergennes bank from the outside of durand vile.

On returning to New York after hearing the grievances of Boston business men over the poor service of the Boston & Albany railroad, Vice-president Brown of the New York Central road (controlling the Boston & Albany) said: "I shall return to New York and recommend to the directors of the New York Central that immediate steps be taken to improve freight and passenger terminal facilities in Boston. I have no power to make any specific promise, but I realize that existing conditions here are not what they should be and that improvements suggested should be carried out as far as possible." Barre business men have received some promises from Central Vermont officials, and they have the power to carry them out.

JOHN D'S LATEST GIFT.

Admitting that it would be far preferable for John D. Rockefeller and his co-off men to shave down the price of his commodity in the first place so that his poorer contemporaries might get the benefit of it in their individual pockets,

Little late in the season, you say? But it will be good for you next year—but not for us. We have no room to carry things over. You will get about half this Winter's wear and pay about half the usual price. Fifty Suits at one half regular price. Thirty-five Suits at one-third regular price. Twelve Overcoats at half regular price. Ten Overcoats at one-third regular price. Everything in our store is marked down 10 to 50 per cent to clean up our stock. Just for this week.

We Clean, Press and Repair Clothing. Fur Coats to Rent.

It must be admitted also that he is going far in giving back what he wrings from the people. His vast gift of \$32,000,000 to the general education movement, as announced Wednesday, is probably the biggest single gift of the kind ever made—that is, the biggest in which the public has been the beneficiary. Prior to this he had given about \$11,000,000 to this same association. Besides, there are his very large donations to the oil university out in Chicago,

MONEY AT COMPOUND INTEREST will work for you continuously, day after day, week after week, year after year. It never tires; the longer it works the more it earns. Table showing the accumulation of \$100.00 during twenty years when interest is compounded semi-annually.

which are said to amount to \$30,000,000. Therefore, while we deprecate Rockefeller's method, we cannot avoid the evident truth that a considerable portion of the money is coming back in an indirect way. It is to be hoped that there will be none of that ultra-virtuous sentiment against the acceptance of the gift.

CONSIDER THE PASSENGERS.

If no convictions follow the issuing of warrants against two Central Vermont trainmen, charged with "carelessly and negligently" running the freight train which crashed into a passenger train at South Royalton on January 18, the movement ought to result in breaking up the practice of racing against time and the schedule. The members of the crew who were on the down freight testified before the railroad commissioners that they had nine minutes in which to make seven miles and enter the siding at South Royalton. It is a fast freight that can make that time and keep on the iron. But that space of time is not what they were figuring on; they planned on the customary lateness of the northbound passenger train, as they testified at the hearing, and it so happened that precedents were smashed on that particular date and the passenger train was on the tick of the minute. Therefore, the collision. Have not the hapless passengers any rights and assurance of safe passage? They may be able to find out after the cases in question have been taken into court.

SOUTH CABOT.

The sick ones are all on the gain now. Anna Clark has lost his foot quite badly one day this week. C. B. Boudry has lost his only horse, it was sick and he was obliged to have it killed. D. S. Hall was in Barre and Montpelier Wednesday and Thursday in the interest of his cant dogs.

MISS JESSIE BUSLEY.

The brilliant star of "In the Bishop's Carriage," which will be presented at the Barre opera house on Saturday, February 10th.

Koyas is at work for Phelps Brothers, at their new mill at Kimball Corner.

Miss Catherine J. Tupper of Westport, Mass., closed a successful term of school at Cutler Corner, Friday. Mr. and Mrs. Harlie Whitcomb went to East Corinth Thursday to attend the funeral of Mrs. Oscar Eastman. Mrs. E. O. Curtis, who has been visiting her mother at Morshfield for the past week, returned home Thursday.

PLAINFIELD.

O. L. Martin of this town has been appointed a member of the State Fair Commission from Washington county. The duties of the commission are to annually hold a state fair at such time and place as it deems proper. The commission will meet at Burlington next Tuesday to organize and fix the date of the fair for 1907.

RESIGNS ONE COMMISSION.

Capt. Gibson of Company I of Brattleboro Steps Out. Brattleboro, Feb. 9.—Col. Ernest W. Gibson sent in a request to be relieved from duty as captain of Company I to Adjutant General W. H. Gilmore yesterday. He feels that this work will not permit him to take such an active part in the militia and there is a question as to his holding two commissions from the governor. He has a commission as colonel on the governor's staff, and also the commission as captain. He has been connected with the militia 10 years and has served as captain of Company I three years. Gen. Gilmore will appoint a time for an election by the company and the man they select will be given a commission by Governor Proctor.

paid for in advance, but the trolley company are getting around that. "How is that?" "Well, they are changing their automatic trolley tickets that have the slots marked nickels, dimes, quarters, etc., over to rade pints, quarts, cases and half barrels. The booze dispensary have ordered twenty-five machines and now the collectors are out as a job."

Raymond Gilley on Tuesday last sold to G. W. Gordon of Moretown a handsome pair of two-year-old steers for the sum of \$150. Gilley six feet two inches tall. They looked so nearly alike that it was almost impossible to tell them apart. Mr. Gilley is noted for owning fine cattle, and he was proud of these "little beauties." It will be hard for him to replace them.

Muslin Underwear!

There Never Has Been a Time When Muslin Underwear Hasn't Appealed to the Feminine Nature!

Even in the old days when people cared little for dress the Undermuslins received unusual attention and many a candle has sputtered well into the night to make lace and embroidery for the "trossau."

Great changes have been wrought in the manufacture of Muslin Underwear since the days of even Priscilla, and while there always was and always will be a certain charm and worth to the hand made, I'll bet there wasn't a woman of the 1700-time but what would rather have been living nowadays, when they could step right into a store like this fifteen minutes after the question had been popped and buy Underwear just as dainty and a good deal better shaped than they ever dreamed of making in the days when there was a spinning-wheel in every home.

THE BEST PLACE TO BUY THE BEST UNDERMUSLINS IN THESE PARTS.
